Driving instructions

To calculate the duration of your drive, check your GPS or www.viamichelin.co.uk.

Destination as France, Riquewihr, 68340 (zip code), **Rue / street STECKGRABEN** (nearest option as rue des Cordiers will not show and is inaccessible to any traffic).

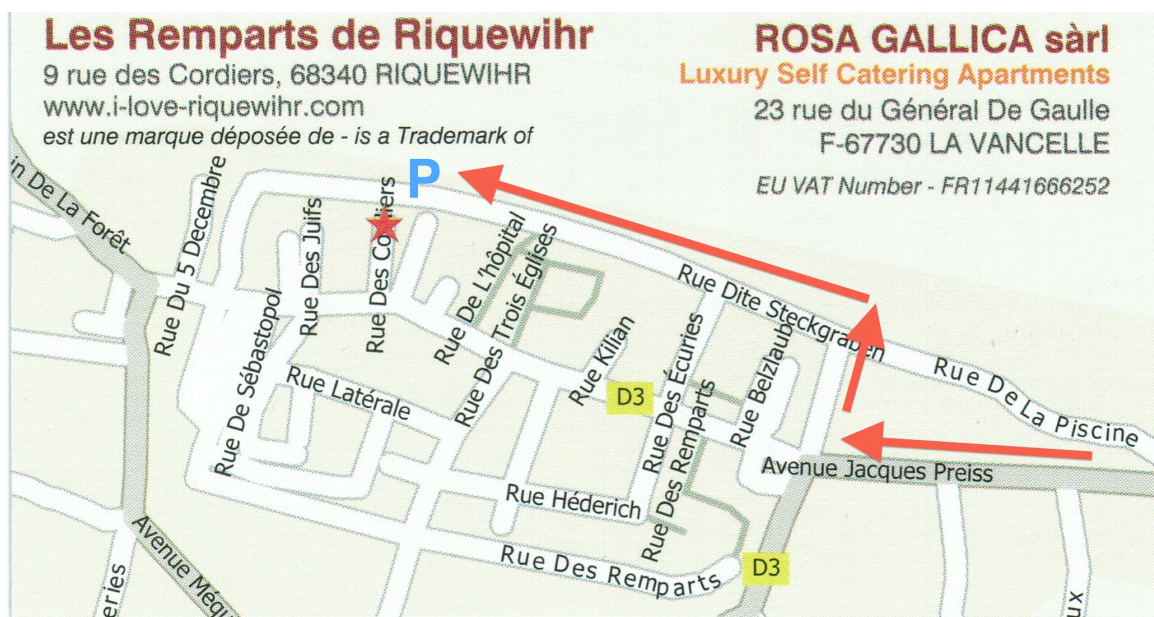

Once you will arrive at the big roundabout at the entrance of Riquewihr, continue to the medieval city. You will face the old gate of the Hôtel de Ville (city hall) giving way to the main street.

DO NOT ENTER THE OLD CITY

and from this point switch off your GPS and follow strictly as explained below. Take right (without passing the gate) **and then left** in front of the restaurant L'ORIGINEL.

Follow the road up to the 3rd pedestrian passage through the ramparts (**flight of stone stairs on the left, our stairs are after the wooden staircase with a roof**).

Park your car and climb the stairs. The meeting point is just the first door on your left.
